

# Authorized SRP Training Development

## SRP Annual Plenary Meeting

Plenary Session 1: Integrating SRP tools and programmes for broad-scale outreach and value chain transformation

Siem Reap, January 22, 2019

**Astari Widya Dharma**

Sustainable Rice Standard and Value Chain Expert, GIZ

# Overview

*as response to the SRP Secretariat's request for organizations interested to establish an official SRP training programme and identify authorized training service providers*

- **Inconsistent understanding** of SRP instrument & tool application in varied contexts and by different audiences
- **Stakeholders have independently developed and delivered SRP-related training**, however typically project-specific and geared to narrow audiences
- From the SRP training Workshop, May'17 –organised by IRRI and SRP Secretariat, the participants (SRP members) have noted & recognised:
  - **the need to have a common understanding of the SRP instrument & tool**, to facilitate consistent and quality implementation and credible claims
  - **the need to compile the best practices as a centralized training package** which will help the producers to improve towards sustainability

- ❖ Develop **authorized training packages** for SRP implementation
- ❖ Establish an **authorized training delivery system**
  - Authorized institutions & trainers
  - Only deliver by persons that have completed SRP authorized training curricula in SRP outreach programs

SRP AC/IB and SRP Secretariat approve GIZ voluntary proposal, as the following:

- ➔ **GLZ leads the facilitation of the Training Task Force**
- ➔ **Training Task Force develops the training delivery system**
- ➔ **AIZ as an authorized SRP training provider to deliver trainings and give input for didactive approach of the trainings**
- ➔ **Task Force & AIZ to develop training income stream for SRP – with estimated at 25% of total training fees**

*To provide the training system & the modules to SRP members by end of 2019*

*The results will be assessed after one year (end 2019) to determine further steps*
